INTRODUCTION

Data Analyst with a strong foundation in Python, SQL, and statistical analysis, adept at transforming complex data into actionable insights. Experienced in developing dashboards, conducting hypothesis testing, and applying business intelligence frameworks to drive data-driven decision-making and process improvement. Proven ability to automate tasks and communicate findings through compelling data storytelling, supporting operational efficiency and strategic initiatives.

PRACTICAL PROJECTS

1) Automation

Automated repetitive data-processing tasks with Python scripting, enhancing operational efficiency. Project Link: github.com/Lord-of-Souls/Automation-Project

2) Data Storytelling

Completed full analysis and hypothesis testing, preparing intuitive visual presentations to communicate findings and generate actionable insights. Project Link: github.com/Lord-of-Souls/Data-Storytelling

3) Business Analysis (BI)

Applied business-intelligence frameworks and business-metrics analysis, building and testing hypotheses from user metrics to inform strategic decisions. Project Link: github.com/Lord-of-Souls/Business-Analysis

4) SQL Integration

Worked with relational databases, SQL, and JSON to identify product issues, test hypotheses, and plan an advertising campaign, contributing to data-driven strategies. Project Link: github.com/Lord-of-Souls/SQL-Integration

EDUCATION & CERTIFICATIONS

Data Analysis Bootcamp (Data Processing) — TripleTen Brasil | 2025-04 – 2026-04

Mechanical Engineering Coursework — Universidade São Francisco | 2024-08 – 2025-02

Certifications: Aspiring Data Analyst, Data Storytelling, Data Collection and Warehousing (SQL)

Awards & Achievements: Gold medal, Brazilian Astronomy Olympiad (2020), Qualified for the second phase, Brazilian Physics Olympiad

SKILLS & TOOLS

Programming Languages: Python, SQL

Frameworks & Libraries: pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly

Tools & Environment: Excel, Tableau, Git/GitHub, Linux/WSL, Jupyter/Anaconda

Methodologies: Data cleaning and preprocessing, Exploratory data analysis, Statistical analysis, Hypothesis testing, A/B and A/A/B testing, Business intelligence (BI), Business metrics analysis, Data storytelling

Soft Skills: Analytical Thinking | Data-Driven Decision Making | Process Optimization | Problem Solving | Data Storytelling

LANGUAGES

Portuguese: Native

English: Professional Working
