INTRODUCTION

Data Analyst with a strong foundation in Python, SQL, and statistical analysis, adept at transforming complex data into clear, decision-ready insights. Proven ability to apply A/B testing, hypothesis testing, and data visualization to guide business strategy and optimize operations. Eager to leverage hands-on project experience and a data-driven mindset to extract insights and contribute to real-time predictions in a dynamic media and entertainment environment.

PRACTICAL PROJECTS

1) Data-Driven Business Decisions

Executed A/B tests and statistical analyses to evaluate impact and prioritize business implementations, visualizing results in charts to inform strategic decisions. Project Link: github.com/Lord-of-Souls/Data-Driven-Decisions

2) Final Project

Applied the full data analysis lifecycle, including data collection, cleaning, hypothesis testing, and visualization, to extract insights from a real dataset. Project Link: github.com/Lord-of-Souls/Final-Project

3) Predictions and Forecasts

Developed Python-based solutions to forecast trends from historical data, demonstrating foundational skills in predictive analysis. Project Link: github.com/Lord-of-Souls/Predictions-and-Forecasts-Project

4) Software Development Tools — Web App Deployment

Built a Python web application, managed virtual environments, and successfully deployed it to a cloud service for public access. Project Link: github.com/Lord-of-Souls/Software-Development-Project

EDUCATION & CERTIFICATIONS

Data Analysis Bootcamp (Data Processing) — TripleTen Brasil | 2025-04 – 2026-04

Mechanical Engineering — coursework — Universidade São Francisco | 2024-08 – 2025-02

Certifications: Aspiring Data Analyst, Data Storytelling, Data Collection and Warehousing (SQL)

Awards & Achievements: Gold medal, Brazilian Astronomy Olympiad (2020), Qualified for the second phase, Brazilian Physics Olympiad

SKILLS & TOOLS

Programming Languages: Python, SQL

Frameworks & Libraries: pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly

Tools & Environment: Excel, Tableau, Git/GitHub, Linux/WSL, Jupyter/Anaconda

Methodologies: Data cleaning and preprocessing, Exploratory data analysis, Statistical analysis, Hypothesis testing, A/B and A/A/B testing, Business intelligence (BI), Business metrics analysis, Data storytelling, Dashboards

Soft Skills: Analytical Thinking | Data Storytelling | Problem Solving

LANGUAGES

Portuguese: Native

English: Professional Working
