INTRODUCTION

Data Analyst with a strong foundation in Python, SQL, and statistical analysis, adept at translating complex data into actionable insights. Proven experience in A/B testing, hypothesis testing, and data visualization, coupled with practical business intelligence application in operational settings. Skilled in managing performance metrics and automating data tracking, with a foundational understanding of Machine Learning concepts.

PRACTICAL PROJECTS

1) Integrated Project 2 — App UX (A/A/B Testing)

Conducted A/A/B testing to evaluate user experience and draw data-driven conclusions about application performance. Project Link: github.com/Lord-of-Souls/Integrated-Project-2

2) Data-Driven Business Decisions

Executed A/B tests and statistical analyses to assess the impact of business implementations, visualizing results to prioritize decisions. Project Link: github.com/Lord-of-Souls/Data-Driven-Decisions

3) Predictions and Forecasts

Developed models in Python to forecast trends from historical data, demonstrating foundational predictive analytics skills. Project Link: github.com/Lord-of-Souls/Predictions-and-Forecasts-Project

4) Software Development Tools — Web App Deployment

Built and deployed a Python web application, managing virtual environments and demonstrating software development practices. Project Link: github.com/Lord-of-Souls/Software-Development-Project

EDUCATION & CERTIFICATIONS

Data Analysis Bootcamp (Data Processing) — TripleTen Brasil | 2025-04 – 2026-04

Certifications: Aspiring Data Analyst, Data Storytelling, Data Collection and Warehousing (SQL)

Awards & Achievements: Gold medal, Brazilian Astronomy Olympiad (2020), Qualified for the second phase, Brazilian Physics Olympiad

SKILLS & TOOLS

Programming Languages: Python, SQL

Frameworks & Libraries: pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly

Tools & Environment: Excel, Tableau, Git/GitHub, Linux/WSL, Jupyter/Anaconda

Methodologies: Data cleaning and preprocessing, Exploratory data analysis, Statistical analysis, Hypothesis testing, A/B and A/A/B testing, Business intelligence (BI), Business metrics analysis, Data storytelling, Dashboards, Foundational Machine Learning

Soft Skills: Data-driven decision-making | Problem-solving | Analytical thinking | Collaboration

LANGUAGES

Portuguese: Native

English: Professional Working
